

Mohammed Farhan KK

Full Stack Developer | React.js | JavaScript | Python | Django | REST API
+91 9526910191 | farhanmohammedfarhan7@gmail.com | Malappuram, Kerala, India

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and shipping responsive web applications using React.js, TypeScript, Python (Django/FastAPI), and REST APIs. Comfortable across the full development cycle — UI design, API integration, and PostgreSQL database management. Experienced in Agile workflows with Git-based version control.

TECHNICAL SKILLS

Frontend	React.js (Hooks, Redux), Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design
Backend	Python, Django, FastAPI, REST API Design, JWT Authentication
Database	PostgreSQL, Django ORM
Tools	Git, GitHub, VS Code, Postman, Vercel

WORK EXPERIENCE

Python Full Stack Developer Intern Uptime Software Labs, Malappuram	Jun 2024 - Apr 2025
- Built and delivered full-stack web applications using React.js, TypeScript, Django/FastAPI, and PostgreSQL. - Worked on both frontend and backend for a live CRM project — REST APIs, JWT authentication, RBAC, and PostgreSQL models. - Designed and integrated reusable React components with Redux for scalable state management across multiple modules. - Wrote and tested REST API endpoints using Postman; identified and resolved bugs across the full stack. - Participated in code reviews, handled bug fixes, and improved UI responsiveness across devices. - Collaborated in Agile/Scrum sprints using Git and GitHub for version control and team workflows.	

PROJECTS

CRM - Customer Relationship Management System (Team Project, 5 Members) github.com	Jan - Feb 2025
<i>React Vite Material UI Django DRF PostgreSQL JWT</i>	
- Worked on both frontend and backend — REST API endpoints, JWT authentication, RBAC, and PostgreSQL models. - Covered 5 CRM modules: lead tracking, deal management, activity logs, global search, and PDF export.	
PrimBuy - Full-Stack E-Commerce Application github.com	Oct - Nov 2024
<i>React Redux Toolkit Django DRF PostgreSQL Vite Axios JWT</i>	
- Built full-stack e-commerce platform with React + Redux Toolkit (auth, products, cart, orders) and DRF backend. - Implemented JWT auth, Axios interceptor, protected routes, cart CRUD, and order history.	
Weather Web App	2024
<i>JavaScript REST API HTML CSS OpenWeatherMap API</i>	
Developed a responsive real-time weather app consuming the OpenWeatherMap API with a clean, intuitive UI.	

EDUCATION

BA Economics University of Calicut - PPTM Arts and Science College	2022 - 2025
Higher Secondary - Humanities DHSE Kerala, IUHSS Parappur	2020 - 2022

TRAINING

- AI-Powered Full Stack Developer Internship (React + Python) — Uptime Software Labs (2024 - 2025)
